1 When you think about learning from diversity, what comes to mind first?

Note the experiences, people or places that come to mind, and where you feel at ease or challenged.

2 Where are you from, and is that an easy question for you to answer?

Write the short answer you usually give, then what it leaves out.

3 Which response felt familiar, and which felt unfamiliar?

Note the speaker and the idea. Watch for the response that is least like yours.

4 What did it add to your thinking?

Is there a kind of difference you had not thought about before?
